Big Kid Science is devoted to improving the state of science education for children around the world. Our award-winning books, written by author and astrophysicist Jeffrey Bennett, use fictional stories accompanied by nonfiction sidebars to teach real science while also inspiring children with dreams of exploration and adventure. Future plans include additional children's books, curricula for elementary and middle school children, and software and other educational products designed to inspire children to learn science.

Titles:

1) **Max Goes to the Moon**

By Jeffrey Bennett

Pub date: 2003, 2013 (forthcoming new edition)

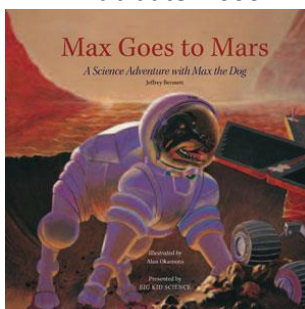

Critics call *Max Goes to the Moon* “simply the coolest kids book to come along in years.” In this first book of the series “Science Adventures with Max the Dog,” in which an inspirational story is paired with sidebars that explain the science that lies behind the scenes, Max and his human friend Tori take the first trip to the Moon since the Apollo era. Their trip proves so inspiring to people on Earth that all the nations of the world come together to build a great Moon colony from which “the beautiful views of Earth from the Moon made everyone realize that we all share a small and precious planet.” ***Max Goes to the Moon* was read from space by astronaut Alvin Drew during the final mission of the Space Shuttle Discovery, and is also the subject of a new planetarium show available around the world beginning in late 2012.**

2) **Max Goes to Mars**

By Jeffrey Bennett

Pub date: 2006

Max Goes to Mars is the second book in the Big Kid Science series “Science Adventures with Max the Dog.” This time Max joins his friends on the first human mission to Mars, where Max helps make

one of the most exiting discoveries in human history — the discovery of microscopic life on Mars. Of course, we do not yet know whether life really exists on Mars, so this story provides children with the perfect opportunity to learn about the possibility of life on Mars and how we may search for it in the future. *Winner of the 2010 Teachers' Choice Award.*

3) Max Goes to Jupiter

By Jeffrey Bennett, and Ellingson

Pub date: 2009

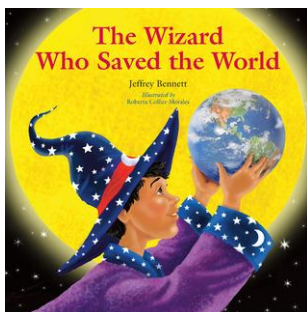

Max Goes to Jupiter is the third book in the Big Kid Science series "Science Adventures with Max the Dog." Max and his friends begin their adventure with a ride 100,000 kilometers straight up on the amazing Space Elevator — a concept that might really be developed. They then travel to Jupiter, where they drop a probe into Jupiter's atmosphere and visit the volcanically active moon Io and the ice-encrusted moon Europa. On Europa, Max helps find the spot where the crew can send a submarine through the ice and into the ocean below. *A Children's Choice selection of the International Reading Association.*

4) The Wizard Who Saved the World

By Jeffrey Bennett

Pub date (copyright): 2012

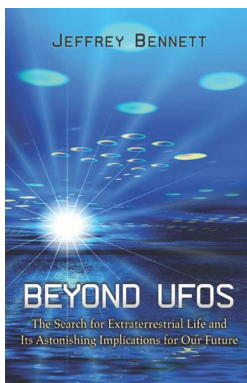

The latest book from Big Kid Science, *The Wizard Who Saved the World*, focuses on young Diego, who dreams of using magic to solve the world's problems. As the story progresses, he realizes that no magic is needed — if he works hard and holds on his dreams, he can be a wizard after all. The scientific focus of this book is on global warming and potential future sources of energy. The National Science Teachers Association says: "*Everyone from students to teachers and parents will be inspired by Diego's journey... a fascinating book to share with all students.*"

5) Beyond UFOs

By Jeffrey Bennett

Pub date (copyright): 2008, 2011

Critics are raving about *Beyond UFOs*, which offers a whirlwind tour of the scientific search for life in the universe, the remarkable things we already know about any aliens who might be visiting us, and the astonishing implications of the search for life to our own future as a species. In the words of NASA astrobiologist Chris McKay, *Beyond UFOs* is "Precise, accurate, lucid, and engaging. This is popular-science writing at its best."

Titles:

1) **Five O’Clock Follies: What’s a Woman Doing Here, Anyway?**

By Theasa Tuohy

Pub date: Oct. 15, 2012 (paper and e-book editions)

A freelance writer struggles to find her place among hard-nosed newsmen covering the Vietnam War in this depiction of wartime journalists.

In her debut, former Associated Press editor Tuohy describes the Vietnam War through a journalist’s lens. Freelance writer Angela Martinelli arrives in Saigon in 1968, wearing her “greenness” in the form of high-heeled shoes and a gorgeous mane of red hair. As one of the few women correspondents in a war zone, Angela is greeted with misogyny, skepticism or disdain by her male colleagues, except for Nick, who works for a Chicago newspaper and gives her the benefit of the doubt. She soon proves her merit and bravery in the middle of a covert operation in Cambodia, surviving capture by the Viet Cong, living in a bunker during a siege and chasing truths that the military denies and her fellow reporters doubt. Angela also finds romance in the midst of this chaos;

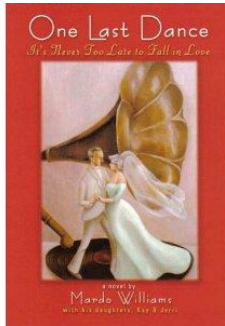

eventually she must choose: her career or love. Angela’s determination is commendable as she forges ahead in spite of incredible dangers and an unconscionable lack of professional support. She’s a model for young women seeking equality in male-dominated professions. Some portions of the book are slow, but they accurately reflect the downtime journalists endure between scoops—hanging out at bars, drinking Scotch, swapping gossip and waiting for the next gig. The story picks up steam when Tuohy describes pivotal moments of the war: the Tet offensive, the siege of Khe Sanh, soldiers on the line and the horrific injuries they sustained, even the psychological torment of walking endlessly through the jungle. The action is riveting and the writing is clear, detailed and highly readable. An engrossing portrait of a woman among men in wartime.--**Kirkus**

2) ONE LAST DANCE: It's Never Too Late to Fall in Love

By Mardo Williams (with his daughters, Kay & Jerri)

Pub date: Hard cover, September 2005

WINNER, 2009 Ohioana Award for Writing & Editing Excellence; WINNER, Best Regional Fiction! 2006 Independent Publishers Book Award & NRCA Finalist, Romance Writers of America

Morgan, age 89, and Dixie, 79, aren't crazy in love, but they're moving in together anyway. Their friends think they're just crazy. He likes her blue eyes, and figures she'll do all the housekeeping. She likes his banking career, and figures he'll pay most of the bills. They're both wrong. When a troubled young man collides with the daring course set by the lovers, the impact changes all their lives.

"...leaves the reader feeling invigorated and enthusiastic about life." --

Midwest Bk Review

"A magnificent hallmark of senior romance."--**Armchair Interviews**

"A masterpiece." --**Bookpleasures.com**

"Charming and touching."--**Akron Beacon-Journal**

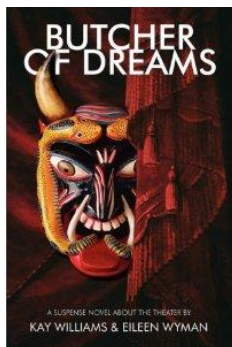

Also LARGE PRINT & E-book Editions

3) BUTCHER OF DREAMS (paper and e-book editions): A suspense novel about the theater.

By Kay Williams and Eileen Wyman

WINNER, Best Mystery/Thriller/Suspense & Book of the Year! 2008 ReaderViews Reviewers' Choice Awards

Pub Date: 2007

A ritual Aztec mask is stolen. Lee enters a bizarre world, both real and imagined, a prelude to ritual murder. She must fight a madman to save her theater and herself.

"A daring attempt... but here it works. I [was] caught up in the plot and chilled by how it unfolded. A very disturbing read indeed." --**ArmchairInterviews.com**

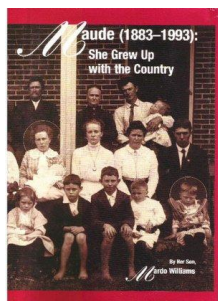

"... suspenseful, gripping and teeming with interesting characters and details. It is set in a world that is both real and unreal, both tangible and imagined." **Tory Lowe, Ashland Univ. Collegian**

"This mystery is so character driven that it is easy to suspect any of the theater company...they all have something to hide. But it is Lee's ultimate struggle with loneliness and an overloaded professional

struggle that brings the story to its shocking climax. Don't start this wonderful story if you have something else to do, because this fantastic plot will win the fight! A big thumbs up!!"--**Shelley**

Glodowski, Midwest Book Review

4) MAUDE (1883-1993): She Grew Up with the Country By Mardo Williams (Hard cover and e-book editions)

WINNER, Ohioana Library Award

Pub Date: April 1995

Maude's life story parallels the emergence of modernized America.

"Settle down for a detailed read & be prepared for glimpses of another time & place out of which we grew. Mardo Williams uses all his skill as a reporter to bring to life the stories his Mother remembered."--**RebeccaReads.com**

"Maude's unique story would not shine so brightly were it not for Williams' eloquent writing." **—Ft. Myers News-Press**

"Life was not all Little-House-on-the-Prairie perfect. A suicide and two murders grieved the family. Extraordinarily detailed and pageturning...Maude was the grandmother we all wish we had." **—Ohioana Quarterly**

"...puts a human face on history." **M. Mangus, Dept. of History, OSU**

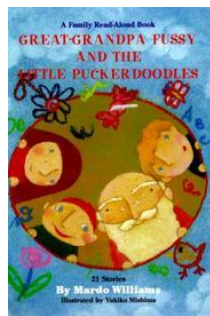

"...the book is of considerable value not only to general readers but also to social historians." **—Dr. Richard Trainor, U of Greenwich, U.K.**

5) GREAT-GRANDPA FUSSY and the Little Puckerdoodles By Mardo Williams Illustrated by Yukiko Mishima

WINNER, Ohioana Library Award

Pub Date: March 2000

Hard cover and soon-to-be E-book edition

"....energetic and colorful images admirably showcase these original very charming stories for young readers..." **—Jim Cox, Midwest Book Review**

"The author is 94 and the illustrator is 23, but the stories are timeless." **—Alan Caruba, Bookviews**

"An excellent pick for parents to read aloud, young readers ages 7 to 10 also will enjoy saying the very words in these stories—marshmallows, Britches the dog, Ma and Pa Fuddyyduddy and the children's silly names. Williams has a true talent for language, and the illustrations are colorful and cute without upstaging the stories." **—Today's Librarian**

Titles:

1) **Anatomy and Asana: Preventing Yoga Injuries**

Anatomy and Asana offers an easy and successful method to learn anatomy and its relationship to yoga in a way that helps prevent injuries. It is written by a certified yoga teacher with a diverse background in kinesiology, ergonomics, and physical rehabilitation.

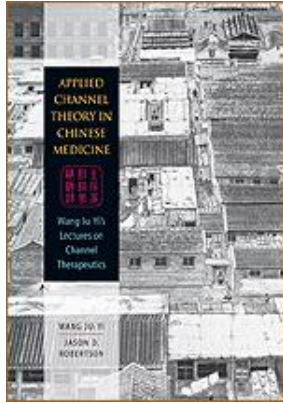

Anatomy and Asana answers many practical questions that are often asked by yoga students – about back pain, knee pain, and shoulder pain; about clenching the butt in back bends, and how to release the hamstrings or prevent hamstring tearing in forward bends. The book combines hands-on information with illuminating drawings, stories, and helpful tips to show you how to practice yoga with less pain. It informs without overwhelming the reader with too much information.

Anatomy and Asana is divided into four parts: basics of anatomy; language of anatomy and movement; the eight essential principles of movement as they relate to yoga; and application of these principles to specific groups of yoga asanas: standing poses, back bends, forward bends, twists, and inversions. For each group, the book shows where there is a tendency for injury and what you can do to instill space in your body and thereby prevent injury from occurring.

2) Applied Channel Theory in Chinese Medicine

Applied Channel Theory in Chinese Medicine demonstrates how a deeper understanding of the interrelationship between organ and channel theory can lead to more precise diagnoses and better clinical results. This book is a collaboration between Wang Ju-Yi, one of modern China's most respected scholars, teachers, and practitioners of traditional Chinese medicine, and his American apprentice and practitioner, Jason Robertson.

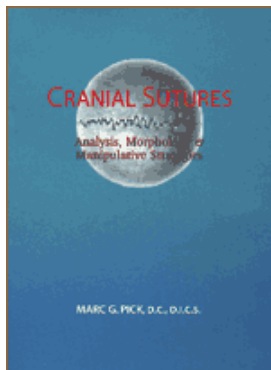

While most textbooks focus either on the functions of the organs in basic physiology or on the uses of the channels in treatment, this book shows the essential relationships between the two. Theory and practice are connected through a detailed discussion of a channel palpation methodology developed by Dr. Wang, which leads to more precise and effective point selection, location, and technique.

Applied Channel Theory in Chinese Medicine was developed during Mr. Robertson's apprenticeship with Dr. Wang in Beijing, and is presented in a unique and highly readable format that preserves the intimacy of dialogue between apprentice and teacher, with questions and answers, narratives, and case studies.

Winner of best TCM book of 2008 by the German Scientific Society of Traditional Chinese Medicine.

3) Cranial Sutures: Anatomy, Morphology & Manipulative Strategies

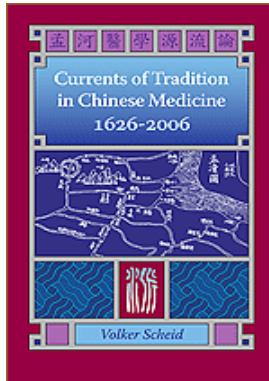

While there is considerable diversity in the forms and styles of cranial manipulation, all would agree that a thorough understanding of the sutures of the cranium and face is essential. Yet until now, no one has given these important structures the attention they deserve.

In this ground-breaking work, the author describes the structure and motion of the sutures in much greater detail than ever before, showing with extensive photographic evidence how the bones of the cranium actually move, and how the practitioner can optimally affect that movement. Based on many years of experience in both the clinic and anatomy lab, Dr. Pick's analysis is supported by over 300 photographs and illustrations.

Systematically examining each of the sutures, including those of the face, vault, and base, Dr. Pick brings clarity and precision to these descriptions. Everyone who touches the head with a therapeutic intent will learn many valuable lessons from this book. This is likely to become the standard reference on the cranial sutures for many years to come, and is an essential book for all practitioners of cranial manipulation.

4) Currents of Tradition in Chinese Medicine: 1626-2006

In 1626, a young man named Fei Shangyou moved his family to Menghe, a small town in the Yangzi delta of China. According to family legend, he abandoned his career as a scholar and began working as a physician. In doing so, he founded a medical lineage that continues to the present day. This book describes the development, flourishing, and decline of this lineage and its many branches, as well as that of the other medical lineages and families with which it merged over time to form the “current of Menghe learning” (Menghe xuepai).

This current and its offshoots produced some of the most influential physicians in the Chinese medical tradition during the 19th and 20th centuries. Menghe physicians, their disciples and students treated emperors, imperial mandarins,

Nationalist Party generals, leading figures in the Communist Party, affluent businessmen, and influential artists.

In late imperial China, Menghe medicine was a self-conscious attempt to unite diverse strands of medical learning into one integrated tradition centered on ancient principles of practice. In Republican Shanghai, Menghe physicians and their students were at the forefront of medical modernization, establishing schools, professional associations, and journals that became models for others to follow. During the 1950s and 1960s, the heirs of Menghe medicine were key players in creating the institutional framework for contemporary Chinese medicine. Their students are now practicing all over the world, shaping Chinese medicine in Los Angeles, New York, Oxford, Mallorca, and Berlin.

The history of the Menghe current is relevant to anyone interested in the development of Chinese medicine in late imperial and modern China. This book traces Chinese medical history along the currents created by generations of physicians linked to each other by a shared heritage of learning, by descent and kinship, by sentiments of native place as well as nationalist fervor, by personal rivalries and economic competition, by the struggle for the survival of tradition and glorious visions of a new global medicine.

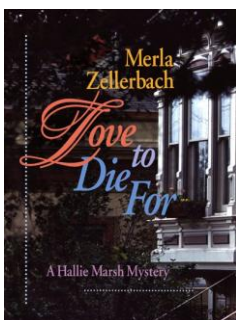

On the level of both theory and practice, this history marks a departure from the focus on texts and ideas that has dominated Western engagement with Chinese medicine to date. Its goal is to locate medicine within the concrete lives of physicians and their patients, restoring an agency to their actions that easily gets lost in our search for the forces or structures that shape historical process. To this end, the author interweaves social history and medical case studies, ethnography and biography to narrate a story of Chinese medicine that is very different from any that has been told before.

Our adult nonfiction titles have ranged from an in-depth exploration of friendship (*Friendshifts*®) to a "how to" guide with a unique approach to finding a date or a mate (*125 Ways to Meet the Love of Your Life*) as well as business books exploring time management (*Creative Time Management for the New Millennium*), business protocol (*Business Protocol*), and nonfiction or business writing (*Effective Business and Nonfiction Writing*). We are expanding to add memoir to our nonfiction categories.

Titles:

1) 125 Ways to Meet the Love of Your Life

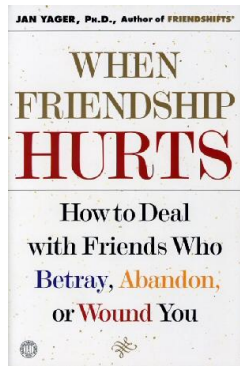

125 Ways to Meet the Love of Your Life helps readers to find the love of their life as well as what to do to keep the new relationship going. The 125 annotated ways are divided into 9 categories such as introductions by friends and family, parties, matchmakers, personal ads, travel, and lots more. Examples of successful matches based on Dr. Yager's original research are included throughout those chapters. Extensive appendix of additional resources.

2) The Cantaloupe Cat

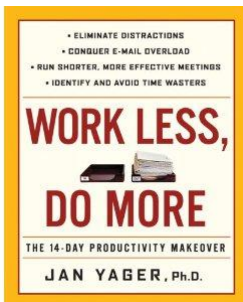

The Cantaloupe Cat Illustrated by Mitzi Lyman (1998).

A book celebrating the uniqueness in all creatures. Age: Read to through kindergarten. Reviewed by Cats magazine as a book that will enchant cat lovers of all ages.

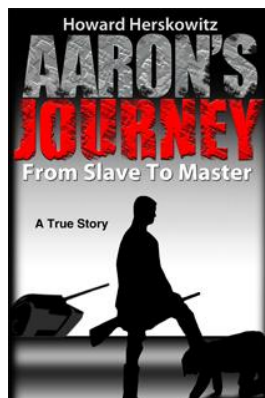

3) When Friendship Hurts

"*When Friendship Hurts: How to Deal with Friends Who Betray, Abandon, or Wound You*" is friendship expert Jan Yager's exploration of 21 types of potentially negative friends as well as how to deal with negative friends, seeking out positive friends, including friendship at work.

4) Work Less, Do More

Jan Yager's third book on time management that helps you to eliminate distractions as well as deal with e-mail as well as how to handle changes and interruptions. Yager conducts workshops on time management; this book is based on original research that pinpoints the top three obstacles to getting things done efficiently -- trying to do too much at once, paperwork, and procrastination -- and how to deal with each of those issues.

5) Howard Herskowitz, Aaron's Journey

In a dramatic moment, this slight man, just 5'2", may have single-handedly changed the outcome of a major battle; he engineered the retreat of the Germans and their Hungarian allies before the Russian onslaught, directly countermanding Hitler's orders. A few weeks later, the Nazis surrendered at Stalingrad.

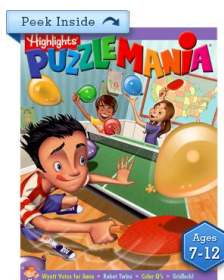

Superhuman? No. Just the right combination of skills, pluck, and a whole lot of luck, who managed to evade almost-certain death not just once, but time after time—who even managed to reunite with his beloved after years of absence—Aaron, a slave on the battlefield, Helen, imprisoned in Auschwitz and Bergen-Belsen—hundreds of miles away from their birthplace.

relaxation and movement — without going to the gym
Sitting Kills

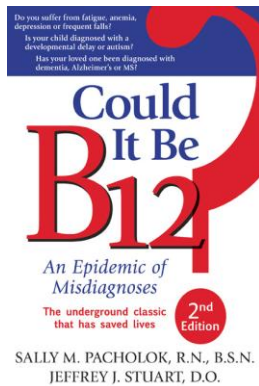

Moving Heals

How Simple Everyday Movement Will Prevent Pain,
Illness, and Early Death — and Exercise Alone Won't

JOAN VERNIKOS, Ph.D.
Former Director of NASA's Life Sciences Division

Sitting Kills, Moving Heals: How Everyday Movement Will Prevent Pain, Illness, and Early Death -- and Exercise Alone Won't

Written by the former director of the NASA Life Sciences division, *Sitting Kills, Moving Heals* shows that the key to reversing the damage of sedentary living is to put gravity back in your life through frequent, nonstrenuous actions that resist the force of gravity throughout the day, 365 days a year. Better than an exercise or diet plan, *Sitting Kills, Moving Heals* gives readers a blueprint for transforming their lives with everyday healthful activity. The *Sitting Kills, Moving Heals* method is fun, easy to follow, takes no time commitment and it works, giving far better results than conventional diet and exercise plans.

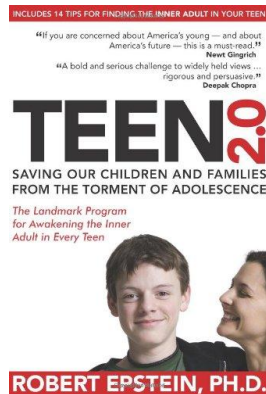

2) Could It Be B12? 2nd Edition

An Epidemic of Misdiagnosis

In this revised, expanded and updated second edition, *Could It Be B12? An Epidemic of Misdiagnoses* uncovers a public health crisis that even many doctors don't know exists—the chronic misdiagnosis of vitamin B12 deficiency.

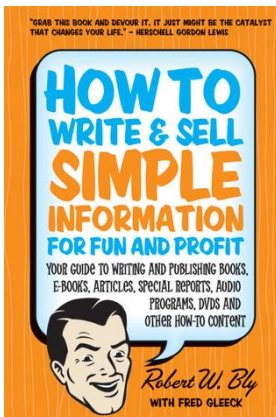

Few patients are properly tested for B12 deficiency, even though it's a common disorder that can be easily detected and inexpensively treated. The manifold symptoms of B12 deficiency can look exactly like a myriad of different diseases, misleading doctors to misdiagnosis.

3) Teen 2.0

Saving Our Children and Families from the Torment of Adolescence

Praised as “a must-read?(Newt Gingrich), “rigorous and persuasive?(Deepak Chopra), “a landmark book? (Dr. Drew Pinsky), “profoundly important? (Dr. Joyce Brothers) and “one of the most revolutionary books I have ever read?(Dr. Albert Ellis), *Teen 2.0* challenges all conventional wisdom about teenagers from top to bottom.

4) How to Write & Sell Simple Information for Fun and Profit

Your Guide to Writing and Publishing Books, E-Books, Articles, Special Reports, Audio Programs, DVDs and Other How-To Content

Writing informational, how-to nonfiction is the ideal career for career changers, consultants and entrepreneurs of all kinds. Writing builds your brand, establishes your expertise, extends your influence—not to mention that writing can be a highly profitable career.

Scientists Greater than Einstein tells the stories of ten scientists whose discoveries have had an amazing impact on humanity. Combined, these ten have saved more than 1.6 billion lives—and yet, most remain unknown and unheralded.

For instance: Do you know about the eye doctor who in the 1970s figured out how to save millions of children with a nickel's worth of medicine? How about the man in the dusty fields of Mexico who has saved hundreds of millions of people from dying of starvation and malnutrition? Everyone knows about Jonas Salk and his polio vaccine. Do you know whose discovery made Salk's vaccine possible and who created the measles vaccine that has saved many more lives than the polio vaccine?

A quarter of the world's population is alive today due to these ten scientists and no one knows their names. *Scientists Greater than Einstein* will correct this oversight.

Titles:

1) Klimt

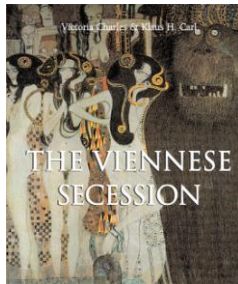

Klimt was an artist of great eroticism and sensuality; together with Kokoschka and Schiele, he is one of the great masters of Expressionism. This book combines Klimt's finest paintings with a text that demonstrates the extraordinary eclecticism of this great artist.

2) Klee

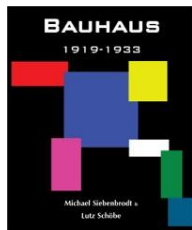

In his paintings, Klee subtly combined the tendencies of the beginning of the 20th century. To German Expressionism, he injected elements of Cubism and Orphism, sprinkling his works with a surrealistic and melancholic poetry. The author leads us through the marvels of Klee's world where each brush stroke echoes the power of colors.

3) Viennese Secession

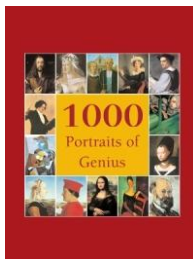

Symbol of a forecasted revolution, the Viennese Secession possesses within itself the dissidence of approximately twenty talented artists against the conservative academicism which petrified Vienna and the whole Austro-Hungarian Empire of that time.

4) Bauhaus

Through a series of beautiful reproductions, this work provides an overview of the Bauhaus era, including the history, influence, and major figures of this revolutionary movement, which turned daily life into art.

5) 1000 Portraits of genius

With its impressive number of masterpieces, biographies, and commentaries on works, this book presents and analyzes different portraits, consequently exposing to the reader, and any art lover, to a reflection of the evolution of society, as well as the upheavals of a genre that, over three centuries, has shaped the history of art.

Quirk Books publishes innovative and buzzworthy books that entertain, amuse, and inform.

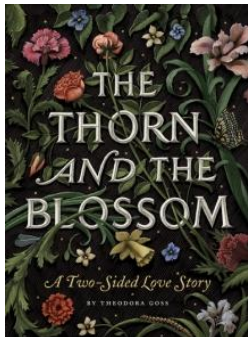

Founded in 2002, we publish books that are objects of desire and delight—in the categories of pop culture, humor and gift, horror, sci-fi, and mystery, food and drink, parenting, pets, history, crafts, reference, and of course, "irreference." We publish 25 new titles per year, in print and digital formats.

We are best known as the publishers of the international best-seller *PRIDE & PREJUDICE & ZOMBIES* and as the creators of the best-selling *WORST-CASE SCENARIO SURVIVAL HANDBOOK* series—but we do so much more.

Titles:

1) THORN AND THE BLOSSOM (romance in unique leporello format slipcase, one of the most beautiful books to hold and read) Spring 2012 release

One enchanting romance. Two lovers keeping secrets. And a uniquely crafted book that binds their stories forever.

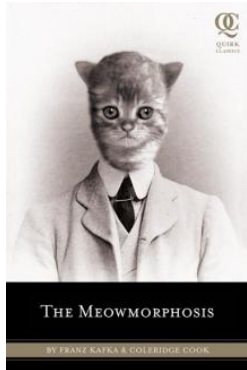

When Evelyn Morgan walked into the village bookstore, she didn't know she would meet the love of her life. When Brendan Thorne handed her a medieval romance, he didn't know it would change the course of his future. It was almost as if they were the cursed lovers in the old book itself...

The Thorn and the Blossom is a remarkable literary artifact: You can open the book in either direction to decide whether you'll first read Brendan's, or Evelyn's account of the mysterious love affair. Choose a side, read it like a regular novel—and when you get to the end, you'll find yourself at a whole new beginning.

THEODORA GOSS won the World Fantasy Award in 2008 for her short story “The Singing of Mount Abora” and has been repeatedly showcased in the Year’s Best Fantasy & Horror series. She lives in Boston, where she teaches literature at Boston University. Illustrator **SCOTT MCKOWEN** lives in Stratford, Ontario

2) MEOWMORPHOSIS (mashup humorous fiction) Fall 2011 release

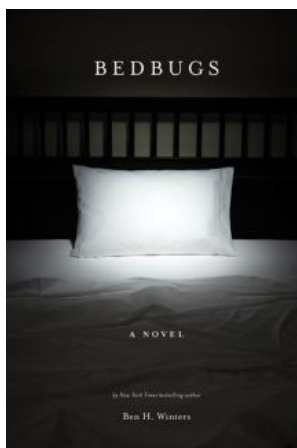

One morning, as Gregor Samsa was waking up from anxious dreams, he discovered that he had been changed into an adorable kitten.”

The phenomenal success of *Pride and Prejudice* and *Zombies* inspired a massively popular literary-remix movement. Now Quirk Classics once again charts bold new territory, turning the monster-mash-up formula inside out to infuse Franz Kafka’s horrific masterpiece, “The Metamorphosis,” with the fuzziest, snuggliest, most adorable creatures possible: kittens!

Gregor Samsa is a humble young man who supports his unemployed parents and teenage sister by working as a traveling fabric salesman. But his life goes strangely wrong in the very first sentence of *The Meowmorphism*, when he wakes up late for work and discovers that he has inexplicably become an adorable kitten. His family must admit that, yes, their son is now OMG so cute—but what good is cute when there are bills to pay? How can Gregor be so selfish as to devote his attention to a ball of yarn? And how dare he jump out the bedroom window to wander through Kafka’s literary landscape? Never before has a cat’s tale been so poignant, strange, and horrifyingly funny.

Franz Kafka is one of the 20th century's most influential authors. His novella "The Metamorphosis" and his novels *The Trial* and *The Castle* are regarded among the most original works of modern Western literature. **Coleridge Cook**, writing under a different name, is a beloved fantasy novelist and blogger as well as the winner of several prestigious literary awards.

3) BEDBUGS (psychological thriller a la Stephen King) Fall 2011 release

Alex and Susan Wendt are the perfect couple in search of the perfect brownstone-and they find their dream house in the heart of Brooklyn Heights. Sure, the landlady is a little eccentric, and the handyman drops some cryptic remarks about the previous tenants. But the rent is so low, it's too good to pass up!

Big mistake: Susan soon discovers that the brownstone is crawling with bedbugs . . . Or is it? She awakens every morning with fresh bites, but neither Alex nor their daughter Emma has a single welt. Exterminators search the property and turn up nothing. Neighbors insist the building is clean. Susan

fears that she's going mad-but as the mysteries deepen, a more sinister explanation presents itself: She may literally be confronting the bedbug problem from hell.

An understated horror story filled with loving references to *Rosemary's Baby* and other classic tales of urban paranoia, *Bedbugs* will keep your skin crawling into the wee hours of the night.

Ben H. Winters is the New York Times best-selling author of *Sense and Sensibility* and *Sea Monsters* (Quirk, 2009). His most recent book, the YA novel *The Secret Life of Ms. Finkleman* (HarperCollins, 2010), was nominated for an Edgar Award.

4) **PREGNANCY COUNTDOWN** (popular, sold to many countries) Spring 2011 reissue

The *Pregnancy Countdown Book* starts on Day 280 and counts down all the major milestones—with one page of helpful information for each day of pregnancy. Here are tips from doctors and midwives, amusing anecdotes from new moms, and occasional icky-but-important medical information (if you're familiar with lochia, you know what we mean).

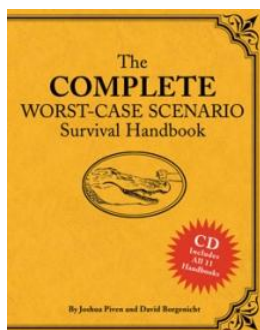

Every page offers interesting revelations. On Day 231, your baby will be the size of a blueberry—but by Day 168, she'll be the size of a large avocado. By Day 124, you'll need to stop sleeping on your back; by Day 90, air travel becomes a dicey proposition. And if you haven't planned the nursery by Day 45, you're playing with fire.

The perfect gift for expecting moms, *The Pregnancy Countdown Book* will help women navigate the most bewildering but exciting forty weeks of their lives.

SUSAN MAGEE is the author of several nonfiction books; she lives in Philadelphia.

KARA NAKISBENDI, M.D., is a board-certified ob-gyn, a board-certified nutrition specialist, a fellow of the American College of Obstetrics and Gynecology, and the mother of two children.

5) **THE COMPLETE WORST CASE SCENARIO HANDBOOK** (earlier books in this series have been sold in over 40 countries, it is a well known brand).

The Complete Worst-Case Scenario Survival Handbook — The worst of the worst, all in one place! This deluxe desk reference includes a hardbound volume of the most popular scenarios from all 11 *Worst-Case Scenario* handbooks, plus the entire contents of all the books on a fully searchable CD. Avoid the perils of mountain lions and blind dates, avalanches and teenage driving lessons, runaway golf carts and Christmas turkeys on fire—a remedy for every crisis the worst-case experts have anticipated is now only a click away.

The CD also contains newly created extra features: screensavers, e-cards,

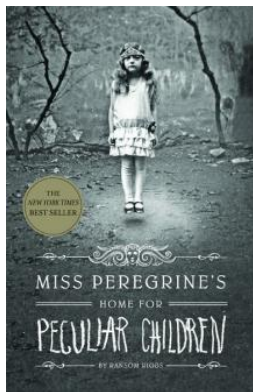

wallpaper, and more. Boasting more than 500 pages, this sturdy addition to the *Worst-Case Scenario* library could stop a bullet—just one more way to be prepared for the worst.

Joshua Piven and David Borgenicht, authors of *The Worst-Case Scenario Survival Handbook* series, live life on the edge in the wilds of Philadelphia.

6) MISS PEREGRINE'S HOME FOR PECULIAR CHILDREN (this title is our New YorkTimes Bestseller -#2 this week - and has already been sold in Czech and Slovak versions, I was thinking of displaying the Czech version if it's out by then.

A mysterious island. An abandoned orphanage. And a strange collection of very curious photographs.

It all waits to be discovered in *Miss Peregrine's Home for Peculiar Children*, an unforgettable novel that mixes fiction and photography in a thrilling reading experience. As our story opens, a horrific family tragedy sets sixteen-year-old Jacob journeying to a remote island off the coast of Wales, where he discovers the crumbling ruins of *Miss Peregrine's Home for Peculiar Children*.

As Jacob explores its abandoned bedrooms and hallways, it becomes clear that the children who once lived here—one of whom was his own grandfather—were more than just peculiar. They may have been dangerous. They may have been quarantined on a desolate island for good reason. And somehow—impossible though it seems—they may still be alive.

A spine-tingling fantasy illustrated with haunting vintage photography, *Miss Peregrine's Home for Peculiar Children* will delight adults, teens, and anyone who relishes an adventure in the shadows.

Titles:

1) Stopping Cyberbullying

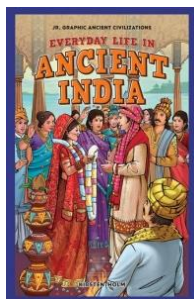

This interactive collection for grades 3 – 6 offers users a safe, simulated Internet experience with hands-on instruction on how to deal with important online safety issues. Today's technology and the Internet offer users myriad ways of keeping in touch, but it is crucial students understand the dangers of risks of connecting with others online. The set covers topics ranging from cyberbullying and online predators to social networks and online privacy. The eBook experience contains a series of fun, engaging "simulations" geared specifically to the topic. Users will create usernames, choose avatars, chat, send messages/email, create profiles, and receive friend invitations—all in a safe, controlled environment. For example, Stopping Cyberbullying shows users how to deal with online bullying, including collecting evidence against a bully and asking an adult for help, while Using Social Networks focuses on creating a secure online profile and making smart choices about sharing information online. Additional eBook features include embedded safety tips, vocabulary terms defined in context, sidebars that further

explore important or high-interest material, and credible, vetted resources to find help or get more information.

2) Everyday Life in Ancient India

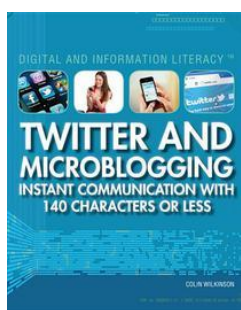

By Kirsten Holm

In this exciting volume, readers take a journey down the Ganges to Ancient India and peer into the life of a garland-maker. The book also elaborates on the ways of life and religious beliefs that shaped ancient Indian communities. Easy-to-follow language helps readers find out about the caste system, culture, economy, and government as they follow this garland maker and his family through a typical day in Ancient India.

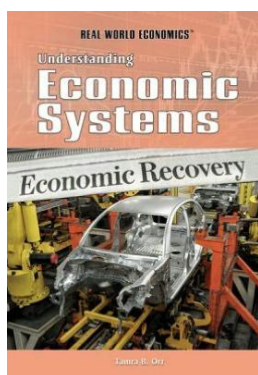

3) Titter and Microblogging

By Colin Wilkinson

Allowing instantaneous communication to people anywhere in the world in 140-character bursts of inspiration, Twitter provides personal communication between friends, family, and acquaintances, is a means for celebrities to connect with their fans, and is a platform for micro-blogging, advertising, and the reporting of breaking news. Learning to use such a powerful and far-reaching form of communication efficiently and safely requires knowing the tricks, the tools, and the responsibilities involved. This book provides exactly the guidance necessary to maximize the wide-ranging utility of Twitter, while alerting readers to the dangers posed by over-sharing as well as the cyber-bullying, cyber-stalking, and flaming that micro-blogging and other forms of digital communication can foster.

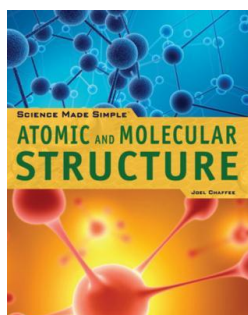

4) Understanding Economic Systems

Every society must decide how to design an economic system that will meet its specific and particular needs. This book explores the different kinds of economic systems that have existed in the past and those that currently hold sway today throughout the world—subsistence, barter, gift, market, command, planned, mixed, and Internet economies—and analyzes each one's relationship to the three criteria of production, ownership, and government control. There are real-world consequences of economics and the economic systems that govern a people, and this book seeks to demonstrate to readers how economics is not merely an abstract, theoretical science, but one which plays out on the streets, in the stores, and at the kitchen table every single day.

5) Atomic and Molecular Structure

By Joel Chaffee

This book offers an interesting, comprehensive, and comprehensible introduction to a complex topic: atoms and molecules. Through straightforward and non-intimidating language, readers learn about the fundamentals of atomic and molecular structure as well as the more involved details.

Titles:

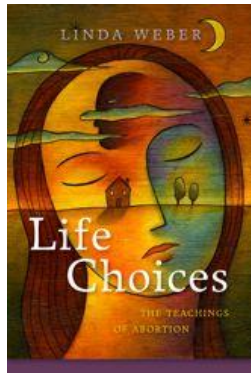

1) **Parenting for Peace: Raising the Next Generation of Peacemakers**

By Marcy Axness, PhD

Pub date – March, 2012

Description - Drawing on leading-edge scientific research in such diverse fields as neuroscience, cell biology, psychology, embryology, and mind-body science, Parenting for Peace empowers parents to change the world by raising a generation built for peace. A child whose brain is wired with the capacity for self-regulation, self-reflection, trust, and empathy will become an adult with the heart to embrace peace, the mind to innovate social solutions, and the will to enact them. This book gives straightforward guidelines for parenting choices that foster

development in a robustly growth-oriented fashion. It highlights the active roles we can all play in uplifting our species toward peaceful interdependence, consciously participating in our own evolution.

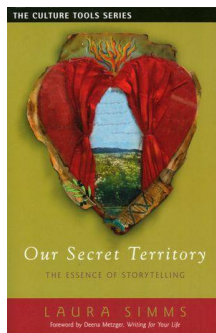

2) Life Choices: The Teachings of Abortion

By Linda Weber

Pub date – August, 2011

Description - Life Choices uses stories of healing and insights into the psychological, spiritual, and socio-historical issues surrounding abortion to help women gain perspective on their experience with it. Both as a personal and social matter, abortion contains seeds of a new consciousness about the interrelationship of life, death, love, and power. Feminists, women seeking self-understanding, and those open to repairing society's broken connection with nature will find that this book changes the way they perceive abortion. The rich material it presents has much to teach us about the meaning of death and

rebirth, the importance of conscious choices and self-respect, the need for responsibility, the changing role of women, and the value of life and relationships.

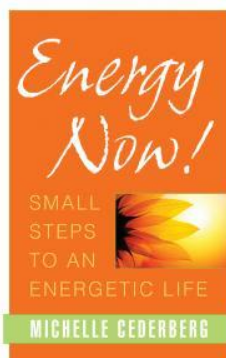

3) Our Secret Territory: The Essence of Storytelling

By Laura Simms

Pub date – June, 2011

Description - Our Secret Territory explores the power of storytelling and how it can serve as a tool for compassionate service in the world. This book offers a direct sense of what takes place between storyteller and audience, which is more like a waking dream than a witnessed performance and more akin to spiritual journey than literary event.

The book is interspersed with short tales, quotes, and poems to inspire reflection and nurture a sense of mystery. Throughout, a single fairytale unfolds, winding in and out like a river through cities of stories, offering further clues into the intangible symbolic journey that can connect us with our wholeness and stabilize “that place of inner peace and creativity.”

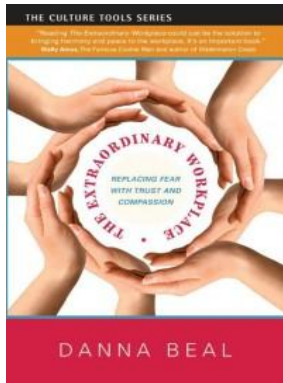

4) Energy Now!: Small Steps to an Energetic Life

By Michelle Cederberg

Pub date – January, 2012

Description - In the crowded health and fitness genre few books support a small-steps approach to lifestyle change suitable for today's busy, stressed out individual, and none provide a simple framework for success. Energy Now! helps you put yourself back on your priority list by starting small, acting daily, and building slowly with energy-generating behavior, starting now. Lifestyle change can be difficult, especially when the guidance comes from someone who is already there, with methods that require a painful overhaul of your entire life. Rather than offering an unrealistic program or promises of a quick fix, the Energy

Now! approach helps you understand that everything you want to accomplish can be broken down into small units that fit into your busy life. It covers diet, exercise, emotional and spiritual energy, motivation, and more.

5) The Extraordinary Workplace: Replacing Fear with Trust and Compassion

Author – Danna Beal

Publication date – October, 2010

Description - This book will uplift the spirits of people suffering from fear and uncertainty in the workplace—millions of people, both leaders and employees, spend 3/4 of their waking hours in energy-depleting environments. Today's workplace is often a web of egos competing for power, managers disempowering employees, and co-workers hurting and sabotaging each other. This book is dedicated to healing the workplace culture by rebuilding relationships to honor our own and others' spirits. When fear is replaced with

trust and compassion, there is a shift in consciousness. The shallow interpretation of ourselves as people who need to battle for power and validation belies our incredible authentic power.
